PURCHASE AND DELIVERY OF 32-PASSENGER CUTAWAY SHUTTLE BUSES FOR SPECIAL TRANSPORTATION SERVICE

date: 1/2/2024

We request that Laketran require products in the specification/ and solicitation to reflect:

- 1 1. Upholstery for seating, Page 13 of 26 to comply with Docket 90. The supplier shall be Bustextil or equal for the upholstery.

Should we include emergency exit windows for ALL available windows on the bus, or do you simply require

- 2 emergency exit windows in the standard positions that are required by law? In a bus of this size, the standard would be 5 windows that would be provided standard as emergency exit windows.
- 3 Are you looking to have rear emergency exit door access?

All vehicles proposed must meet Federal Motor Vehicle Safety Standards (49 CFR Part 571). Docket 90-A states that "that combustible materials to be used in the construction of vehicles have been tested by a recognized testing laboratory and that the results are within the recommended limits." Laketran will accept any upholstery that meets FMVSS criteria. The request to specify Bustextil has been denied.

Laketran seeks to exceed safety standards whenever possible. As many egress windows as possible is requested.

Price as an option if available.
