## SENIORS ON THE GO

Are you concerned about a friend or family member driving or feeling isolated? It's time to call Laketran. We understand transitioning from driving a car to using public transportation can be a difficult life decision. Laketran's Seniors on the Go program also provides personalized assistance from Laketran's Customer Outreach Specialist, allowing seniors to stay mobile and independent. The program is flexible to the needs of each individual senior and their family.

The program provides resources so seniors can make personal decisions on whether they need transit assistance for night or winter driving, to get to doctors' appointments, help during a life changing milestones (stroke rehab, cancer treatment), or for all essential transportation.
